

salsanatura

The secret for a good mayonnaise-based sauce is mayonnaise!

Creativity, genuine and fresh high-quality ingredients, artisanal care: this is what makes our fresh sauces so special.

Only sunflower oil

*The SalsaNatura sauces are made with **sunflower oil, the best for mayonnaise-based sauces.** Its delicate flavour enhances the aroma and taste of all other ingredients, while its light consistency contributes to the creamy texture of our sauces.*

Fresh ingredients of Italian origin

*All the ingredients we use are fresh and from controlled sources: our eggs, for example, are certified and the whole production chain is guaranteed. **When you taste our products, your taste buds will appreciate the carefully selected vegetables.** Mayonnaise and vegetables make an excellent blend and our sauces are so rich that you can use them straight out of the jar, without adding anything else.*

You can also find SalsaNatura sauces in Eataly shops throughout Italy!

Fresh, extremely fresh, or rather cold

*We chose not to use any chemical additives, instead, **our sauces go through a rigorous cold chain, which guarantees freshness and preserves taste.** From the selection of the raw materials to the delivery of the finished product, each stage and each transfer are guaranteed and carried out with the highest attention.*

Keeping the pace with the evolution of taste

Eating habits and taste preferences change continuously, and that's why we are constantly at work to find new recipes and to improve the existing ones.

Creativity is the key element to meet the growing needs of the market.
